To whom it may concern,

**Re: ALX SE Tutor at ALX Software Engineering Program**

The ALX Software Engineering Program is proud to formally recognize the contributions of Daniel Favour Dohou for their outstanding dedication and service as an ALX SE Tutor. After graduating with outstanding marks in their Specialization Portfolio Project, Daniel Favour Dohou has demonstrated exceptional commitment in supporting the graduating cohorts of the ALX SE Program, offering tutorship, guidance, and encouragement to learners navigating their Specialization Portfolio Project.

The [ALX Software Engineering Programme](#) is an intensive 12-month program that rigorously trains students in Computer Science and specialized technology fields.

Through 1-to-1 sessions and active participation in our Discord community, Daniel Favour Dohou has brought a significant impact and contributed to forming a supportive learning environment. This valuable work has not only facilitated individual growth but has also strengthened the spirit of collaboration within the ALX community.

We are grateful for Daniel Favour Dohou's selfless dedication and the positive impact made on our learners' journeys. We believe that the skills, compassion, and leadership exhibited as a tutor will continue to serve Daniel Favour Dohou well in all future endeavors.

This letter serves as a formal acknowledgment and a token of our appreciation for Daniel Favour Dohou's invaluable contribution to the ALX SE Program.

Sincerely,

A handwritten signature in black ink, appearing to read 'Joy Ejiofor', with a stylized flourish at the end.
